June Meeting on the 15th

The June meeting will be held on Thursday, June 15th. The meeting will feature a cook out. Come at 6:30 PM and have some burgers

and hot dogs and share your latest fishing adventures. It will be a great way start the summer!

Pond OK After Flooding

The heavy rains May 12 – 16 raised the level of the pond significantly. The level was over the inner outlet wall by a couple of inches. Some members reported that they found several fish washed over the dam. Unfortunately most of the fish were dead. But there are still plenty of fish left

...the trick is catching them. The brook flowing in looked more like a river. A few hardy (or crazy) members tried fishing during the storm and actually caught trout (only one for this member, but a trout is a trout).

Fishing Report

Fishing for sunfish has been very easy. Fishing for trout has been a little more challenging. But we like it that way; don't we? There is some surface activity on midges, especially toward dusk. Woolly

buggers and other flies to imitate damsel flies and dragon flies have been effective at this time of year historically. They're a little easier to see than the midges too!

Keep Us in the Loop

When you move or change email addresses please update the club list so that we can get information to you.
